

Request To Enroll In The My HealtheVet (Pilot)* Program Portland VA Medical Center

My HealtheVet is a new, online environment where veterans, family and clinicians may come together to optimize veterans' health care. This pilot will allow veterans to view their medical records online through an Internet connection. Currently, you can only view your medical records from participating pilot sites. These sites are Bay Pines, Tampa, Upstate NY, Portland, and Washington DC. If you receive your care at the Portland VA Medical Center, then you will be able to see your records from that site. You will NOT be able to see records from other facilities where you may have received care.

A veteran must submit this application to enroll in this program. Your application then has to be reviewed and cleared by Release of Information (ROI). When approved, you will receive a letter notifying you that you're my HealtheVet user name and password are ready to be picked up at the facility you specify below. You will have to show two pieces of ID (one photo) to verify your identity. If you have not received this letter within 30 day's, you may check on the status by calling 888-233-8305 during the hours of 8am to 4pm.

First _____ MI _____ Last _____
